BIOSCIENCE
ASSOCIATION

STUDENT & INDUSTRY PARTNER MENTOR PROGRAM NETWORKING MIXER

COLORADO SCHOOL OF
MINES

Career Center

Wednesday, October 28th, 4:30PM - 6:30 PM
Student Center, Ballrooms ABC

Join students and industry professionals in life sciences for an evening of networking and mentorship. Participants in the **Colorado Bioscience Association Mentorship Program** will have the chance to connect in person—but participation in the program is **not required** to attend.

Featured speaker Scott Davie will share how networking helped him land consulting gigs and leadership roles in the life science industry—and how you can do the same with confidence.

Meet. Learn. Network. Grow.

Light food will be provided during networking. This event is open to all majors, as well as both undergraduate and graduate students.
